

Types of Microsoft Training

Course

Lecture

Activity

Traditional classroom presentation that combines lecture with guided activities to prepare you for a job or using a new Microsoft technology

Workshop

Lecture

Activity

Experienced with the technology? Learn a skill or function through instructor-facilitated activities and self-directed study

Clinic

Lecture

Demo

What you need to know when using a Microsoft product or feature to solve a business problem

Hands-On Lab

Lecture

Prescriptive Activity

A hands-on first look at features of the latest Microsoft technologies to become familiar with the product
