Part 1 - Minimum Requirements

- Internet Access
- Chrome

Part 2 - Qwiklabs Credits

The labs of this course are done online using the website https://www.qwiklabs.com. To use this site, students will need to create an account and log in. Usually, they do that themselves.

In addition to the account, students will need lab credits. These need to be purchased on the site. Each student will need a total of 24 credits. They can purchase the credits themselves (requiring a credit card), or you can purchase the credits for them.

For this course, each student will need 14 Qwiklabs credits for regular labs and 10 credits for optional labs: 24 credits altogether.

If you purchase the credits for them, you can purchase them in bulk using your own account and share the credits with the students. To share credits, follow the instructions here https://support.google.com/qwiklabs/answer/9120705?hl=en

Part 3 - Summary

You have successfully installed the software for this course!
